**BENEFIT FROM TECHNOLOGY**

Spark erosion, laser technology, state-of-the-art computer-assisted crown and bridge milling technology and implant planning navigation are only a few of the technical specialities we use in our laboratory.

We of course use allergy-free materials such as Zirkon and PMMA-free plastics. We process all popular implantation systems and offer the best technologies that can be found on the European market. Take advantage of the possibilities that we can offer and choose dental replacements from Laufer Zahntechnik.

**affordable – reputable – reliable  
High-tech – MADE IN GERMANY**

**PERFECT DENTAL PROSTHESIS –  
MADE IN GERMANY  
TÜV-CERTIFIED**

affordable – reputable – reliable

**COMPETENCE JUSTIFIES CONFIDENCE**

Laufer Zahntechnik GmbH has been providing dental prostheses of the highest quality for over 20 years and has become one of Germany's leading companies for affordable, first-class dental technology made in Germany.

In our renowned, TÜV-certified specialist laboratory in Mannheim, state-of-the-art equipment, effective technologies, premium materials and expertly trained dental technicians ensure the very highest quality.

With us, in contrast to other suppliers, you can considerably reduce your co-payment contribution without having to forego first-class materials and processing.

Our laboratory's TÜV certification in accordance with DIN ISO 9001 guarantees that your dental prosthesis will be made to the highest professional quality standards.

## PRICE-CONSCIOUS AND INDIVIDUAL

In order to meet the special needs and wishes of our customers in any way we can, we offer two lines of prosthetic dentistry:

### LAUFER Dentistry and

### LAUFER Dentistry EXCLUSIVE.

Whichever line you choose – you will always save money with us.

And the best thing in all this is that your treatment will be partly paid for by your public health insurance fund since we do not charge overpriced private rates and we stay within the maximum prices allowed.

Our certified quality management system, tested by the Technical Supervisory Association (TÜV), gives you further assurance that we manufacture your dental replacement to the highest standards. We issue you with a warranty certificate with an extended guarantee and proof of materials.

## LAUFER DENTISTRY

**We manufacture high-tech dental prostheses in our expert laboratory in Mannheim**, without compromise and using only the best materials. Thanks to our technologically and commercially optimised processes we can achieve improved efficiency, which has a positive effect on our prices.

As a patient, you benefit from a lower co-payment contribution without having to compromise on quality and materials.

Depending on the production step, we require between 3 and 8 days to manufacture your dental prosthesis.

We exceed the quality requirement of the health insurance funds by more than the accepted standard.

We offer an extended guarantee of 4 years (2 years is required in law) and certified **expert quality, Made in Germany – a good feeling**

## LAUFER DENTISTRY EXCLUSIVE

5-star dentistry.

Individuality for the most exacting requirements, exclusively tailored to meet your needs and wishes.

Specialist craftsmanship with the aim of delivering customised, unique workpieces made to the highest expert standards.

**With LAUFER Dentistry EXCLUSIVE** you are at centre of attention.

Together with you and your dentist, we work on the aesthetic details before treatment begins in order to bring about the best possible, natural-looking result.

In order to ensure that the course of treatment is as smooth and convenient as possible, we fit in with your schedule as far as the technical possibilities allow.

An extended guarantee of 5 years underlines the high-quality finish of your dental prosthesis and gives you additional assurance – a good feeling.
